Hi Dusko,

Sorry, I'm not selling software. I would suggest you look for open source community software that is up to date, has documentaion and is under active development. You cannot just run an old system forever. It has to be maintained by a developer.

Regards,
Marek

Hi Mrs. Marek, i'm building my Internet presentation up with some forum functionallity. I think the code used for flork can do the job. Would you sell it? How much?

This forum i want to place on www.x-pivot.com or www.duke-x.com
